"Solutions" services

HEALTH AND SAFETY SOLUTIONS

Providing health and safety training sends a clear message to your workforce that you are concerned about their wellbeing, and care that they work in a safe environment. A significant part of the management of health and safety comes from the training provided, which enables your staff to work in a safe and comfortable manner.

COBCOE are delighted to provide a broad range of easily accessible [online health and safety training courses](#), for the benefit of employees or the management team. This simple yet effective learning system also allows employers to track training progress, and retain certificates of completion should they be required.

EVENTS MANAGEMENT SOLUTIONS

With an abundance of expertise in organising events, COBCOE is pleased to offer its new Events Management Service in the UK, where some of our members do not have a presence. One of our greatest strengths is the ability to help you plan and implement well organised, relevant, intelligent and efficiently managed business events as part of the suite of benefits available for your members.

Our comprehensive [service](#) will help you to identify the message(s) and concepts you want to communicate and help you to implement your events programme in the UK.

You can be assured of a bespoke personal approach to each enquiry

Other benefits

COBCOE Events

Our public business networking and high level events in the UK are open to all members of COBCOE and members of COBCOE chambers.

[COBCOE member chambers](#)

Find a British bilateral chamber in Europe that is a member of COBCOE and make contact to see if they are able to assist you with getting in touch with their members and attending the events they organise in market. Our chambers across Europe are the key experts in their market.

[Partnerships with associate organisations](#)

As part of its strategic development plan to forge alliances with the key market territories across the globe, COBCOE has reached agreements of co-operation with the key British Chambers of Commerce and business associations across the World. The mission and purpose of this initiative is to provide mutual opportunities for the such like-minded organisations and COBCOE to work together on an informal basis for the benefit of their respective members, by creating a platform for information exchange and knowledge transfer, widening the cross market networking and business to business opportunities and in addition increasing the existing marketing tools available to respective members.

[British Business Worldwide](#)

COBCOE, together with world-wide based British chamber organisations are working together with the aim is to share ideas and experience as well as to create an international network for the British business community which can be of access and benefit to all the collective members of the British bilateral chambers across the world

[COBCOE and Social Responsibility](#)

COBCOE is committed to sharing best practice between COBCOE members with a view to maximizing the effectiveness of CSR in all chambers, to identifying a broad cross-section of charities which make an effective and efficient use of donors' contributions, to creating a platform, through events and publications for registered charities to promote their activities and raise funds, to assisting registered charities on a pro bono basis to improve operational activity and to identifying key thought leadership/social responsibility topic areas on which it should focus.

[Public Affairs and Representation](#)

One of COBCOE's key roles is to represent the interests of its collective members, to work with national and European parliamentarians, civil servants and ministers, to monitor key current and prospective business legislation and to take positions thereon on behalf of its membership and to run events relating to public affairs. The 41 Chambers of Commerce that make up COBCOE represent a large and important community of enterprises in Europe doing business to and from the United Kingdom, with a wealth of experience and expertise of the challenges and opportunities at stake.
