# TOWARDS A BETTER FUTURE

Breaking the cycle  
of disadvantage for  
Romania's children

# Who we are

---

**Te Aud Romania was founded in 2014, to break the cycle of disadvantage for children in Romania. We work to give children the skills and resilience they need for a better future.**

We passionately believe that every one of the children we support should have an equal opportunity to learn, grow and thrive.

An equal chance to have a childhood.

*"Supporting Te Aud Romania is easy. They are positively reaching out and touching the lives of some of Romania's most disadvantaged children. They are making a difference in each life they reach."*

# What we do

---

**We focus on practical and effective ways to equip children with the skills they need to recover from trauma, learn life skills, gain employment and thrive to reach their potential.**

Our community includes volunteers, public institutions, schools, social workers, our partners and our funders.

**22,000**

*children across Romania are living in orphanages or under state care*

# Our programmes

---

We work with children and young people, from age 6 to 21, through a range of programmes tailored to support every child to learn, grow and thrive.

## Recover

We provide 1:1 counselling and support to more than 50 children per year to help them heal from emotional challenges and traumas.

Our group counselling and workshops have helped hundreds of children to integrate with their community.

## Learn

Our partnership with the School in A Bag initiative run by the Piers Simon Appeal started in September 2016. Since then we have distributed 1547 schoolbags in 11 schools across Suceava county, giving children the tools they need to learn.

## Work

Steps to the Future has already supported more than 150 young people through career counselling and advice. We help each young person to understand his or her potential and set goals for the future. Steps to the Future gives them the road map of how to get there.

## Thrive

Our children and young people have goals and ambitions, and all the tools and skills they need to reach those goals are inside their mind and soul. We understand their world through listening, empathising, respecting and accepting.

*"As we listen to and accept our children and young people, they learn how to accept themselves. As they find us caring for them, they start to experience themselves as worthwhile and valuable. They are encouraged to see that they have an important role and contribution to society, they can earn money, provide for their families."*

# How you can help

**Our ambition is a Romania where all children and young people have the same rights, opportunities and chances to live a fulfilling life.**

We can't do it alone, your support can help us to make a difference to more young people.

Your donation can help us to deliver our programmes in the Suceava region of Romania, where our work is changing young lives.
